**Customer Since:** April 2014  
**Upgraded to SwiftK12:** July 2017  
**Current Status:** Loving SwiftK12!

“ This is the **best product out there**. We’ve used numerous others, but this integrated much easier into PowerSchool.

We can now send **password protected report cards** via email and easily upload them to the Parent Portal.

It’s **easier to get in touch** with parents now that we have SwiftK12’s PDF Builder. ”
